

About this Software:

Christian Virtual Hymnal 2.2 was purchased by Joel McCoy on 11-18-08 for the Music Ministry of Laveen Baptist Church for the purpose of easily transposing Public Domain Hymns and printing lead sheets. It was a download purchase so it now has been burned to this disk and the original copy deleted. This is the Master Copy of the software. Also on this disk is a PDF of the description of the software on the website:

www.musicase.com/cvhymnal.html

And a PDF of the purchase receipt from the online credit card purchase.
